Summer Human Anatomy Workshop for Pre-professionals

Department of Cell Systems and Anatomy

Calling all Pre-professional students to apply for this highly interactive Summer Human Anatomy workshop to gain an understanding of human anatomy with real hands-on experience. Students will spend the days learning about the human body through regional dissection of a human cadaver, models, prosections, skeletons, other demonstration materials and lectures, taught by anatomy faculty in the school of medicine.

**When:** June 5th – July 3rd, 2017
