2017-2018 Goals

• Monitor Blood borne pathogen (BBP) exposures, needle sticks, TB exposures and employee influenza vaccination program.

• Evaluate, recommend, and approve BBP Exposure Control Plan, Engineered Sharps Injury Prevention, and TB Exposure Control Plan.
Recommendations for 2018-2019

• Annual review of BBP Exposure Control Plan, engineered sharps, and TB Exposure Control Plan
• Continue to monitor HCV conversion rate and compare with expected national rates.
• Improve tracking and administration of influenza vaccination of faculty and staff.
