Policy 5.1.1	Mission	Responsibility:	Vice President and Chief Information Officer

MISSION

Mission and Values

Information Management and Services (IMS) provides leadership in technology and information based services for the UT Health Science Center at San Antonio. By engaging our user-community we will deliver solutions that fulfill the unique needs of our Clinical, Education, Research, and Community Outreach missions.

Our contributions will be defined by enabling innovation, fiscal stewardship and sustainability, compliance, and the continual pursuit of excellence. Our conduct will be guided by the core values of accountability, integrity, respect, honesty, and alignment with the directives of the University of Texas System.
