Most PEDI courses will be open enrollment and will NOT require permission for you to register. However, the following courses WILL require permission:

- **PEDI 4003** General Pediatrics (permission required for Period 1 only)
- **PEDI 4013** Pediatric Hematology/Oncology (all periods require permission)
- **PEDI 4018** Child Neurology (all periods require permission)

For the "Permission-based" courses ONLY, on April 5th at noon, please send 1 email with the following information to the Course Directors/Instructors (as per PeopleSoft) for the courses AND cc me at tomdm@uthscsa.edu:

- **Student Name and ID #:**
- **Course Name, Number and Title:** (i.e. PEDI 4013 Pedi Heme/Onc)
- **Periods in order of preference:** (i.e. 1st preference: Period 2, 2nd preference: Period 3)

* You may include all permission requests on the same email and just send it to all course directors and Dr. Tom. This way you do not have to draft multiple emails. But please keep to the same format as above so we have all the information we need.

Most courses have a limit of 1-2 students per period. It will take several days to approve permissions for the above courses; therefore, I encourage you to register for a course in every block. If we provide you permission for a course, then you can add/drop the course you have as a placeholder.

**Due to factors such as demand and preceptor availability, we cannot guarantee placement for all requests.** We will do our best to accommodate as many as possible and will have a waiting list when necessary. If an opening becomes available, I will then contact you through email and you may accept or decline.

For those interested in joining our Pediatric MS4 Listserv please complete the following Google form: https://forms.gle/cQCo3hj9cDziHdgi8 This allows us to know who you are and update you with pediatric-related events, residency application seminars, 4th-year Pediatric didactics and virtual open houses.

We look forward to working with you during your S/Electives and throughout 4th-year.
Sincerely,
Dina and Rae

Dina Tom, MD, MS
