Mentors in Medicine II

What is this?
Long School of Medicine designed Mentors in Medicine II as an educational program to assist you in preparing for college and to learn the requirements for entry into medical school. Each participant will be assigned a medical student who will mentor them on necessary skills to be successful in college. This program will focus on encouraging and motivating economically disadvantaged minority high school students & college freshman to seek careers in healthcare or medicine.

What will I do? Who is my mentor?
Each high school senior or college freshman is paired up with a medical student mentor throughout the program. You will interact with medical students and faculty at our medical school and participate in group activities, hands on activities, and hear from inspirational guest speakers every week. Dinner is provided at every session.

Where?
Long School of Medicine
7703 Floyd Curl Drive
San Antonio, TX 78229

Participants are expected to arrive on campus no later than 5:15pm.
Student MUST have reliable transportation (Drive themselves to our campus or have someone drop off/pick up)

What type of student are we looking for?
We are looking for high school seniors or college freshman who have an interest in healthcare and intend to study medicine. We know it is early, but for medical school the planning starts as a freshman in college. Medical School is competitive, and the journey starts right now when they start to take college courses. The student should have a drive and passion to be successful in college and have an interest in pursuing a medical profession.

Deadline February 28, 2020

Please be prepared to submit a small essay when registering below. (300 Words Max)

Prompt: Why do you want to be a doctor and practice medicine?

For an application please email Jazmin Gonzalez at gonzalezj30@uthscsa.edu
