Enterprise Research Management System (ERMS) temporary outages.

- **Wednesday, December 20**

To allow time for routine, scheduled maintenance, there will be a temporary outage for all ERMS modules Wednesday, December 20, beginning at 5:00 PM. Normal maintenance occurs over the weekend, however in this case the schedule is moved up to avoid conflict with the Holiday weekend.

During the outage window, any ERMS- users logging in to the system will see a maintenance page notification. The application will return to service by start of business on Thursday, December 21.
