ERMS-Grants PDF Preview – No Impact on Grants.gov Submissions

OSP is aware of concerns regarding the ERMS-Grants Print to PDF Preview function. We want to reassure users that the information transmitted through ERMS-Grants to Grants.gov is accurate and that application submissions are not affected by the expiration date displayed on the PDF preview.

OSP has confirmed that the data transmitted from ERMS-Grants to Grants.gov does not include the PDF form version reference or the expiration date shown on the generated SF424 PDF. Consequently, the expiration date displayed on the PDF has no impact on the application data submitted to Grants.gov and does not affect the validity of the submission.

This issue is limited to the appearance of the generated PDF and does not affect the data transmitted to or received by Grants.gov. If you have any questions or concerns regarding a specific proposal submission, please contact preaward@uthscsa.edu.
